# ***Landfill Gas Control Facilities***

## ***Course #285***

This one-day course gas monitoring, collection and control in Landfill Gas Control Facilities. The emissions control equipment, such as flares and gas-to-energy systems, will be discussed, the rules and regulations reviewed, and inspection strategies presented.

**November 29, 2005**  
**8:30 AM - 5:00 PM**  
**Cal EPA Building**  
**1001 I Street**  
**Sacramento, CA 95814**

Students will participate in a "mock inspection" at a local facility, using equipment and techniques discussed in the classroom. The field inspection and an exam are required to obtain a certificate of completion. **Safety glasses & Ear Protection are required.** Enrollment fee may apply.
